

# WE'RE HIRING!

WE ARE LOOKING FOR

## LABOR TEAM MEMBERS

For over 25 years, Forest Solutions has been the leading private forestry company in Hawai'i and we are again expanding into new projects and need help! We are seeking motivated individuals to work as part of a team to accomplish our forest management projects on Hawai'i Island.

We are seeking applicants with a passion for the outdoors and improving the environment to help with daily tasks in completing our projects. This is an entry level full time, year-round position working in remote locations, sometimes camping up to a week at a time.

If you are self-motivated, observant, have attention to detail; are able to work independently in rugged conditions, and enjoy working as a team to accomplish project goals- this might be the position for you!

### **This fun and engaging position involves:**

- Working on some of the largest native restoration projects in the state.
- Targeted control of invasive species across landscapes that are not otherwise accessible to the general public.
- Working in teams in remote and rugged terrain and thick forests under inclement weather conditions.
- Use of small equipment such as, but not limited to, weed eater, chain saw, pruners, backpack sprayers, etc.
- Completing field work such as planting, weed and invasive species control, fence repair and maintenance, and tree pruning.
- Comfortably and safely completing targeted herbicide applications
- Able to drive off-road for long periods of time, lift up to 50lbs, and walk long distances over rugged terrain for up to 6 miles/day.
- Backcountry camping near work location for up to 1 week at a time, consecutively, with 3-day weekends off.
- Potential to operate tractor with mower deck or other similarly sized equipment
- Communicating verbally with others in an enthusiastic, respectful, and professional manner.
